RISKS

The value of an investment in the Fund can go down as well as up and possible loss of principal is a risk of investing. Investments in international and emerging market securities may involve risks such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. The Fund invests in holdings denominated in foreign currencies, and is exposed to the risk that the value of the foreign currency will increase or decrease. The Fund invests primarily in equity securities, which may result in increased volatility. There is no guarantee that the Fund or the companies in its portfolio will pay or continue to pay dividends. These and other risks associated with investing in the Fund can be found in the Prospectus.

- Holdings may combine more than one security from the same issuer and related depositary receipts.
- Percentage values in data are rounded to the nearest tenth of one percent; the values may not sum to 100% due to rounding. Percentage values may be derived from different data sources and may not be consistent with other Fund literature.
- Equity market cap of issuer.
- The P/E Ratio is the share price of a stock as of the report date, divided by the forecasted earnings per share for a 12-month period (FY1) and 24 month period (FY2). For the Fund, this is the weighted harmonic average estimated P/E ratio of all the underlying stocks in the Fund, excluding negative earners. There is no guarantee that the composition of the Fund will remain unchanged, or that forecasted earnings of a stock will be realized. Information provided is for illustrative purposes only.
- The Dividend Yield (trailing) for the portfolio is the weighted average sum of the dividends paid by each equity security held by the Fund over the last 12 months divided by the current price as of report date. The annualised dividend yield for the Fund is for the equity-only portion of the portfolio. Please note that this is based on gross equity portfolio holdings and does not reflect the actual yield an investor in the Fund would receive. A positive distribution yield does not imply positive return, and past yields are no guarantee of future yields. Information provided is unaudited.

The MSCI All Country Asia Pacific Index is a free float—adjusted market capitalization—weighted index of the stock markets of Australia, China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, New Zealand, Pakistan, the Philippines, Singapore, Taiwan and Thailand. Index is for comparative purposes only and it is not possible to invest directly in an index.
