

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Asia Strategic Income Fund (the "Fund")

a sub-fund of Matthews Asia Funds (the "Company")

S Distribution USD (the "Class") ISIN LU1911630520

Matthews Asia Funds is a self-managed SICAV

Objective and Investment Policy

- Objective:** The Fund seeks to achieve total return over the long term, with an emphasis on income.
- Investment policy:** The Fund seeks to achieve its investment objective by investing, directly or indirectly, primarily (i.e., at least 65% of its net assets) in income-producing securities including, but not limited to, debt and debt-related instruments and/or dividend-paying equity securities and derivative instruments with fixed income characteristics, issued by governments, quasi-governmental entities, supra-national institutions and companies located in or with substantial ties to Asia. Investments may be denominated in any currency, and may represent any part of a company's capital structure from debt to equity or with features of both. Debt and debt-related instruments typically include, but are not limited to, bonds, debentures, bills, notes, certificates of deposit and other bank obligations, senior secured bank debt, convertible debt securities, credit-linked notes, inflation-linked instruments and/or repurchase agreements. Investments in contingent convertible bonds are allowed up to 20% of the Fund's net assets. Financial derivative instruments may be used for hedging and/or investment purposes, including swaps, managing interest rate, currency and credit exposure, involving a variety of underlying instruments, including for example, currencies, debt securities, securities indexes, futures and options on swaps (commonly referred to as swaptions). On an ancillary basis, the Fund may invest in other permitted assets on a worldwide basis. For the purpose of this policy, Asia consists of all countries and markets in Asia and includes developed, emerging, and frontier countries and markets in Asia.
- Dividend policy:** Unlike Accumulation shares of the Fund, substantially all of the income earned on investment is intended to be distributed periodically out of the Fund's gross income.
- Holding period:** The Fund has no minimum holding period, however, the Fund has a long-term investment horizon (typically 5 years or longer). This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- Share transactions:** An investor can buy and sell shares of the Fund on any Business Day in Luxembourg.

Risk and Reward Profile

Interpretation of the Risk and Reward Indicator: The Risk and Reward Indicator takes into account historical data which is not a reliable indicator of the future. The risk category was calculated using related historical performance data and it may not be a reliable indicator of the Fund's future risk profile. The risk category of the Fund is neither a target nor guaranteed to remain stable over time. A risk category of 1 does not mean a risk free investment.

Why is this Fund in this category? The Fund is in risk category 3 because it invests primarily in Asian bonds and other income-producing securities and these assets have not shown sharp changes in valuation ("volatility"). However, many Asian markets are considered to be emerging markets and may experience changes in valuation. Changes in valuation are expected to result in changes in the Fund's net asset value.

Are there other particular risks you should consider? The Risk and Reward Indicator does not provide an overall risk profile of the Fund, nor does it fully capture all the risks of investing in the Fund. Risks that you should consider include: market risk, interest rate risk, currency risk, foreign exchange risk, settlement risk, valuation risk, credit risk, liquidity risk, compliance risk, political risk, legal risk, custody risk, operational risk and counterparty risk. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk. Derivative instruments are highly sensitive to changes in the value of the underlying asset that they are based on. Certain derivatives may result in losses greater than the amount originally invested. If a counterparty were to default, the unrealized profit on the derivative contract and its market exposure may be lost. The Fund intends to pay out all of the income earned by this Class. This may have the result that expenses of this Class may be paid out of capital. Payment of expenses out of capital amounts to a return or withdrawal of part of an investor's original investment, and limits its potential for generating income. For more details about risk, please refer to the Fund's Prospectus under "Risk Considerations," which is available at global.matthewsasia.com/prospectus.

Charges

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry Charge Up to 5.00%

Exit Charge Not applicable

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing Charges 0.75%

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance Fee Not applicable

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Entry/Exit Charges: The Fund may levy an Entry Charge of up to 5% on the value of your investment before it is invested in the Fund. In some cases you may pay an Entry Charge of less than 5%. Exit Charges are amounts taken out of the proceeds of your investment before they are paid out or invested in another sub-fund. All of these Charges reduce the size of your investment and your return. Actual amounts can be obtained from your financial advisor or distributor.

Ongoing Charges: Because the class has not yet been in existence for a full fiscal year, the ongoing charges reflect the total expense ratio cap put in place by the Investment Manager. Ongoing Charges may vary from year to year. Ongoing Charges exclude portfolio transaction costs.

For more information about Charges please see the Fund's Prospectus under "Fees and Expenses," which is available at global.matthewsasiasia.com/prospectus.

Past Performance

There is insufficient data to produce a useful indication of past performance for the share class.

The Fund does not yet have a full calendar year of performance. Once it has been in operation a full calendar year, performance will be shown.
