The value of an investment in the Fund can go down as well as up and possible loss of principal is a risk of investing. Investments in international and emerging market securities may involve risks such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. The Fund invests in holdings denominated in foreign currencies, and is exposed to the risk that the value of the foreign currency will increase or decrease. The Fund invests primarily in equity securities, which may result in increased volatility. These and other risks associated with investing in the Fund can be found in the Prospectus.

## Strategy Highlights

### Survivability and Sustainability

The portfolio seeks to invest in companies that can deliver above average growth over multiple periods, with a focus on the durability rather than just the rate of growth.

### Long-term Investment Horizon

The portfolio aims to invest in businesses for at least 3–5 years. This is reflected in a portfolio with low turnover.

### Highly Experienced Team

Sharat Shroff, CFA, is Lead Manager and Rahul Gupta is Co-Manager of the Fund. They have over 30 years of combined industry experience.
