

Matthews China Dividend Fund

September 30, 2020

Investment Objective

Total return with an emphasis on providing current income.

Strategy

Under normal circumstances, the Matthews China Dividend Fund seeks to achieve its investment objective by investing at least 80% of its total net assets, which include borrowings for investment purposes, in income-paying equity securities of companies located in China. China includes its administrative and other districts, such as Hong Kong. The Fund may also invest in convertible debt and equity securities. The Fund seeks to provide a level of current income that is higher than the yield generally available in Chinese equity markets over the long term.

Risks

All investments involve risks, including possible loss of principal. Investing in international and emerging markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. In addition, single-country and sector funds may be subject to a higher degree of market risk than diversified funds because of concentration in a specific industry, sector or geographic region. There is no guarantee that the Fund or the companies in its portfolio will pay or continue to pay dividends.

INVESTMENT APPROACH

Matthews Asia believes in the long-term growth of Asia, one of the world's fastest-growing regions. Since 1991, we have focused our efforts and expertise in these countries, investing through a variety of market environments. Matthews Asia is the largest dedicated Asia-only investment specialist in the United States. With \$23.7 billion in assets under management as of September 30, 2020 Matthews Asia employs a bottom-up, fundamental investment philosophy with a focus on long-term investment performance.

- 1 The lesser of fiscal year 2019 long-term purchase costs or sales proceeds divided by the average monthly market value of long-term securities.
- 2 The MSCI China Index is a free float-adjusted market capitalization—weighted index of Chinese equities that includes H shares listed on the Hong Kong Exchange, and B shares listed on the Shanghai and Shenzhen exchanges, Hong Kong-listed securities known as Red chips (issued by entities owned by national or local governments in China) and P Chips (issued by companies controlled by individuals in China and deriving substantial revenues in China) and foreign listings (e.g. ADRs). Index is for comparative purposes only and it is not possible to invest directly in an index.
- 3 Calculated from 11/30/09.

Performance assumes reinvestment of all dividends and/or distributions before taxes. All performance quoted represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate with market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the return figures quoted. Returns would have been lower if certain of the Fund's fees and expenses had not been waived. For the Fund's most recent month-end performance visit matthewsasias.com. Due to current market volatility associated with the COVID-19 pandemic, funds may experience significant negative short-term performance.
